Really just looking to inform the group this is an ongoing effort, internationally, since “what is the definition of PFAS” comes up a lot.

I can get enough information from the ORD folks to give a high-level summary of the status, but I won't have enough details to be specific or answer questions. I would propose that we hold on this agenda topic until the next meeting, and I'll arrange to have the ORD folks present.

Thanks,

Susan

The 'office coordinating the effort' (i.e., OCSPP transmits the USG comments and positions and represents USG in the OECD venue) has not been an active participant on the working group, only ORD and OLEM have – so, the participating workgroup members would be the ones with working knowledge of the effort.

If there is to be a presentation on the UNEP terminology effort, we think it should be by the office coordinating that effort. OLEM provided comments, but is not coordinating.

CORRECTION.... The PFAS nomenclature project is OECD & UNEP (not WHO)
Thx

OCSPP will give brief overview on

1) of the "PFAS in/on Containers" issue that is emerging

OCSPP requests an overview from ORD/OLEM (we understand they have been participating) on the OECD/WHO effort on PFAS nomenclature.
